The final main complaint seen in many high efficiency washers is how they don't use enough water. That is hogwash; given how they operate you do not need to fully submerge your clothes. This washer wets everything during the fill cycle, the drum motion circulates the clothes without tangling them, and the turbowash rinses everything off.

We bought this washing machine after our old one starting vibrating too much and making too much noise during the spin cycle. The new LG washing machine is very nice and quiet during the whole wash, rinse and spin cycle. It also washes a lot faster then the old washer. This washer takes under 30 minutes to wash a full load.
